The Landings Garden Club

The Landings Garden Club is located on Skidaway Island, east of Savannah and home to The Landings community.

We are blessed to live on an island of such exquisite beauty, and we take the stewardship of our islands' natural resources very seriously. The Landings Garden Club members support many award-winning projects to promote environmental awareness. We serve our community by enhancing the beauty of Skidaway Island and the natural environment of the southeastern Georgia coast. Join us in our mission by becoming a member!

Do you love to play in the dirt and enjoy the results as your garden grows? Perhaps you are new to the island and the Georgia coast, and are looking for help with native plants. If so, then The Landings Garden Club is waiting for you! Our programs and events provide insight into gardening in the coastal Georgia climate, as well as many other interesting topics relating to our beautiful island and region. Come join us! Our enthusiastic members are full of tips and tricks on what and how to garden in our unique environment. Our members organize and volunteer many award-winning local and community gardening projects for Beautification, Education and Conservation.

To learn more about membership, visit www.thelandingsgardenclub.com/Membership.php.

Shown (l-r) are Vicki Menke, Karyn Rohan, Connie Gescheidt, and Tina Gilbert.
